THANK YOU TO THIS WEEKS SNACK FAMILY
REMINDER: LEILA'S SNACK FAMILY NEXT WEEK**

TREE STUDY

"WHAT FOOD COMES FROM TREES?"

Hello Families,

Our students learned that Trees are plants. They need sun and water to grow. Some trees grow fruits or nuts that people eat. Apples grow on trees. Apples can be red, yellow, or green. Many people eat apples as a snack. Oranges grow on trees. They grow in places that have warmer weather. Orange juice comes from oranges. Coconuts grow on trees. The inside of a coconut has a sweet part that people eat. The coconut is a very large seed. Many other foods grow on trees. Cherries, plums, and walnuts all come from trees! There are several different fruits that grow from trees. Some of them, such as lemons and limes, are grown on trees in warmer climates, and their fruits are orange, yellow or green. Other types of fruit trees grow in cooler climates such as peaches and plums, whose seeds are dispersed by birds that eat the fruit and pass its seeds some distance from the mother tree.

Students tasted various fruits around the world! Some sweet some sour, some who some dislike! All enjoyed the experience! Michaela- "My kiwi tastes like lemon, no way lol!"

Students create and label different fruit tree!

Family Partnerships:

What is the weather like in places where oranges grow?
What part of a coconut can people eat?
Invite a family member to help make applesauce or apple bread with your child/children.

During discussion and shared writing: We showed the book Henny Penny. Reminded the children about the acorn that fell on Henny Penny's head. Explained, "An acorn is a nut that many animals eat. It comes from an oak tree."

Next: We asked, "What fruits grow on trees?" Dhairya- "Apples!", Ahil- "Lemons!", Alyssa- Oranges and apples!", Michaela "Kiwi!"

Ms. Regina visits to teach measurement!

Peter makes cards in writing area! Peter- "I love you Ms. Mariela!"

Lucas- "Did you know Giraffes don't just eat any kind of leaves!"

Lukas- " I made a monkey, monkeys eat bananas!"
 Dhairya-" Giraffe eat leaves!"
 Leila- "Did you know that giraffes have orange and brown spots !"
 Dashana II and Ahil-" I hear water inside the coconut!"
 Arabella- "This pinecone is 3 inches!"

Divyansh- " We all decide to build something together in toys and games area today!"
 Lucas- " The kiwi smells so good I will pass it to Ira!" Ira-" I know this fruit it has many seeds!"
 Dashana II- " I can count and measure, this is going to be long!"

Manvir- "I love coconut water!" Emma- "I don't like coconut water so much, but I tried it!"
 Students found the evergreen tree in Lincoln Park! Leila- "Ms. Nicole come look what I found; these are roots of a tree!"

Thank you, Ms. Regina for our Wow Experience, during small-group time! So much fun!!
