### Science Time!

#### How do you make snow with baking soda and conditioner?

Start with 1/2 cup of **conditioner**, and use a fork to stir in about 3 cups of **baking soda**. This **snow** packs very well and is great for making snowmen! Shaving cream and cornstarch. Mix equal parts shaving cream (foam, not gel) and cornstarch for this recipe, which makes a dense, foamy **snow** that is very easy to mold.

**Art & Music** helps us keep calm and helps us focus! Student draw and write while listening to various sounds/instruments! Making art that responds to music can **increase sensory awareness, facilitate mindfulness, and encourage emotional expression.**
